

## J. O. Guleke Makes Appeal for Sterling

### Praises Governor, Calls Attention to Weakness of Ferguson

J. O. Guleke of Amarillo, former member of the Board of Regents of Teachers College and now a member of the State Board of Education, spoke Saturday night at the bandstand in the interest of the re-election of Governor R. S. Sterling. Mr. Guleke based his talk upon the high plane of constitutional and responsible government, and the attacks on Jim Ferguson referred only to his record as an impeached governor, and the result of his activities during the administration of Mrs. Ferguson while governor.

Mr. Guleke called attention to the fact that never was there a time when constitutional government was in such danger of being overthrown. It is time when the thinking people of Texas express themselves, and take an interest in what is going on in the political circles of this state. A vote for Mrs. Ferguson is a vote for Jim Ferguson, who is disqualified to hold even the office of notary public in Texas, and such a vote is a slap at the constitution of the state, which forbids Jim Ferguson from holding office in his wife's name. He would have no oath, bond or responsibility to the people. The office of governor would be his to do with as he pleased. The question is whether or not the voters of Texas shall stand behind the constitution of Texas and abide by its demands for responsible government.

Mr. Guleke called attention to the impeachment proceedings of Jim Ferguson, when Ferguson's friends voted to impeach him. Carried to the supreme court this body upheld the impeachment proceedings as being regular. In 1924 the people of Texas gave the Ferguson another chance, electing Mrs. Ferguson, but Jim took more authority than any governor could assume. He let contracts for the highway department and for the school children's text books and dictated the policies of the state government. He now has the gall to come before the people and ask them to give him the same chance to repeat his disgraceful acts as he performed at that time. Those who are supporting the Ferguson at this time declare themselves against constitutional government. The speaker said that any one who was on the state's payroll and supporting the Ferguson should resign, as they admit that they are against constitutional government, and was opposed to the hand which was feeding them.

Ferguson has never shown consistency in anything he did. He is the friend of no man, but out strictly for what was in the interest of Jim Ferguson.

Applying the present race to Randall county, Mr. Guleke quoted figures as to what a vote for Sterling meant to the average taxpayer. He showed that the election of Sterling will mean a reduction in local taxes of 40 cents on the \$100 valuation, whereas if Ferguson is elected, the tax rate would remain the same. This means a saving of \$13.95 annually to every taxpayer in Randall county who has property in the amount of \$3,000, and a total of \$610 for the life of the average bond. Every taxpayer who has property should support Governor Sterling, who will save him money by taking over the bonded indebtedness for road purposes.

Other acts of Governor Sterling were reviewed, including the budget law; the report of the state auditor on the bonded indebtedness of the state; the economy measures; the special taxes on cement, sulphur and oil, which reduced the tax of the average citizen, with Jim Ferguson opposed to all of these special taxes as he represented the special interests; and the balancing of the state's budget which will put the state almost on a cash basis by September first.

Mr. Guleke declared that martial law in East Texas had saved the East Texas oil field, and millions of dollars in revenues.

Fred E. Wortham presided at the meeting. Judge W. I. Gamewell spoke for Judge J. E. Hickman, candidate for the Supreme Court. Col. J. W. McCrery and Dan McGrath spoke for Col. E. O. Thompson, candidate for the four-year term on the Railroad Commission.

Leo McDade of Amarillo was a business caller in the city Tuesday.

## T-Anchor Cow Boys Will Meet September 1st at Wragge Park

John Arnot of Amarillo was here Tuesday conferring with E. D. Baird, regarding the annual celebration of Old Time Cow Puncturers which will be held Sept. 1st. The following invitation has been mailed to those eligible to membership:

The Eleventh Old Time Cow-puncturers Round-Up on the T-Anchor ranch, will be held September 1st, at Wragge's Park, one mile north of Canyon on the Amarillo-Canyon Highway.

Every person who punched cattle or worked on a ranch on or before December 31st, 1895, his wife and children and their wives or husbands or the widow of a deceased member are eligible to attend, but please leave the grand children at home.

On account of the uncertainty of knowing how many would attend an expensive barbecue, the management has decided to hold a "Depression Basket Picnic" instead. Every family is requested to bring a basket of "Grub" and a little extra to take care of the old bachelors.

We will make a big pot of coffee for everyone. If you have any tin cups bring them along.

This Association was organized for the purpose of the Old Cow-boys meeting old time buddies and "harking" back to the early days when they rode the range together.

The grounds will be open the night before and all who wish to come and camp may do so.

JOHN ARNOT, President.

## Second Primary to Be Held Saturday

### Run-Off Is Expected to Bring Out Heavy Vote in Texas

The second primary election in Texas Saturday is expected to bring out a very heavy vote, but hardly as large as the first primary in July, when it is charged that at least 100,000 illegal votes were cast. Interest centers around the election for Governor, with Governor Sterling admitted to have a slight edge over Mrs. Miriam Ferguson, who is presented as a candidate in the name of her husband, James E. Ferguson, the only governor ever impeached in Texas.

Randall county has only a few run-off races, but interest centers around the contest for Sheriff and Tax Collector. Bob Barnett led the first primary and Ben Louder was second. Both candidates have been very active during the second primary. This is the only county race in the run-off.

In precinct No. 1, the commissioner's race is between G. B. Heath and W. T. Hazlewood. In this precinct the constable's race is between Wayne McCormick and

## News to Receive Election Returns on Saturday Nite

The News will receive election returns Saturday night and post them in the west window of the News building as in the past. The News is a member of the Texas Election Bureau, composed of the leading newspapers of Texas, and will receive the regular bulletins on the state races up to midnight. The county returns will be compiled, and all election judges have been requested to have their returns to the News as early as possible in order that the county may be completed early Saturday night. The short ballot will make the counting rapid, and all returns should be counted early in the evening.

## YES, THEY LET OUT A SQUAWK

Warwick: You damn skunk stay off the liquor business if you know what's good for you. We got your job and elected one of our friends. We are going to elect Ma Saturday and others favorable to us. Shut your damn mouth. The Gang.

The above letter came through the mail yesterday.

So there is a gang in Canyon. The charges made from the outside are true that Canyon has a liquor gang.

They admit it, in the above letter. They admit they have elected their friends, and intend to elect other friends.

So far as I am concerned, there is no office in the land worth bowing a knee to a bunch of bootleggers, if it takes that to be elected. So far as I am concerned, I would rather not have a single vote than to pay tribute to the lawless element in Canyon, or any place else, just to hold a public office.

It is a compliment to my friends to know that they did not vote with the element who wrote the above, and which claims the honor of causing my defeat. I am sure that not all who happened to think that I should not continue in office are of this lawless class. I would hate to think that the bootleggers and the gamblers really were in a majority in any town or any community. But this gang is howling like hit dogs because the News has firmly and definitely declared that this lawless element must go. It would be a tragedy to believe that the lawless element in Texas had charge of local and state government, but they are exerting too great an influence, all will admit.

I say to those interested in good government that we have a job ahead to rid this land of the law breakers. It is not an easy or pleasant job either. This gang is well organized. It has plenty of money, taken from the pockets of poor fools who cannot afford to pay tribute to them. It has as catpaws a bunch of soft headed saps who bow down and worship those who flaunt curses in the face of law and order, and who will stop at no limit to win their point. They are merciless in their attack, relentless in their demands, and unrestrained in their abuse. There is not a single truth on their breath. They will trample down the good name of the most respectable citizen, and assassinate his character in the hope that good people, through ignorance, prejudice or lack of understanding may harken to their damnable reports and follow their biddings.

"The Gang," as they call it, sticks up its head. There is only one way for respectable citizens to handle the situation; as you would a rattlesnake. There is a clarion call for action on the part of citizens who want to see this nation ruled by decent and respectable men, those who do not bow down to the booze hounds and booze peddler, to strike back and rid this land of this impending curse.

Turn to page two and read the editorial of this week which was written and printed before the above insult was received. I say insult, not because it was directed at me, for my life as an individual or an officer is of small concern and of little importance. The letter is an insult to every man and woman who believes in good government, and wants to see Canyon a decent town to which the young people may come for self-improvement rather than self-destruction.

People of Canyon, if you want this damnable influence in Canyon wiped out, do something about it, and do it now.

Clyde W. Warwick

## Contract Let Yesterday for Museum Building

### SUMMER WORK COMES TO END AT COLLEGE

#### EXAMINATIONS START FRIDAY MORNING.

Dr. J. A. Hill Talks to Class Wednesday—78 Degrees Awarded For the Summer.

The summer commencement exercises which took place at the College yesterday morning were marked by the conferring of the first Masters Degrees ever granted by a teachers College in the State of Texas. "This," said President Hill, "made the occasion an important one, of great significance in the history of the West Texas State Teachers College and of Education in Texas."

There were eight successful candidates for the Masters Degree. They were Clinton DeArmond, Canyon; James Gray, Carrizo Springs; Malcolm Hunt, Canyon; Lee Gilmore, Turkey; Wilhelmina Oberst, Canyon; Jonnie and Mable Rowan, Amarillo; and Law Sone, Dean of Texas Woman's College, Fort Worth.

Dr. J. A. Hill delivered the Commencement address, having for his subject, "This Rising Tide of Freedom." Outlining the progress of the human race on the road to freedom, Dr. Hill continued: "The rising tide of freedom is at the flood, and sober men are asking themselves 'Where will it take us? Where do we go from here? Indeed, where are we now?'"

In seeking an answer for these questions the speaker showed that every advance toward freedom has been marked by hardship, and paid for in human blood and suffering, and that freedom, in the present age, if it is not to destroy, must be accepted with the responsibilities which it implies. These are the responsibilities to so conduct each individual life that it will not jeopardize the life of another human being; to found economic practice on the principles of economic equity; to make the Christian religion something more than a beautiful ideal to be dreamed of.

In closing, President Hill pointed out that the problems and trials of the present world-wide depression and chaos that are testing the

### Absentee Votes Break Records

All records for absentee votes have been broken in Randall County for the August primary. A total of 137 absentee votes had been filed yesterday at the County Clerk's office, which is far above the number cast in any past election.

Voters had, up to Tuesday night to cast their ballots, and it is likely that several more may be added, which had been cast at some distant place and could not reach Canyon before today or tomorrow.

## Education Subject Tuesday Luncheon of Rotary Club

Education was the subject Tuesday at the luncheon of the Canyon Rotary Club, when Dr. Albert Barnett and Mayor C. R. Burrow discussed the question. The program was in charge of the Classification committee, Allen Farlow, chairman.

Dr. Barnett called attention to seven important things relative to education, as follows:

1. During this period when there is so much talk about liquidating the community's intelligence through the schools.

2. Waste must be curbed in the schools, but the schools must not be crippled. Waste of public funds is a betrayal to a public trust.

3. While the customers of the store, the shop, the office may have dwindled, the customers of the public schools are ever on the increase.

4. Food, clothing, have prior claims over education, but education is the tool to meet the problem of food and clothing, and the schools are helping solve this problem.

5. Things which do not have prior claim to education consists of 23,000,000 pleasure cars, operated at the cost of not less than \$707.10 each per annum, white ways for our towns, and numerous luxuries. While 16 billion of dollars are being spent for pleasure cars alone, education in all phases is costing only 3 billion, 200 million.

## AMARILLO FIRM LOWEST BIDDER ON BUILDING

### CONTRACTS TO BE SIGNED AND FILED SOON.

Building Possible by Local Donations and Appropriation From the State Legislature.

The W. Frank Little Construction Company of Amarillo was the successful bidder for the erection of the museum building of the Panhandle-Plains Historical Society. The directors opened the bids Tuesday, but were unable to complete the contract until yesterday afternoon, owing to changes in the specifications made necessary to keep the building within the funds of the Society. Mr. Little was superintendent of the Fred Bone Construction Company, contractors of the Canyon high school building, and is recognized as being one of the most responsible contractors in West Texas.

W. H. Hayman of Amarillo received the plumbing and heating contract. He held like contracts on the high school building and the education building at the college.

The contracts were drawn yesterday and submitted to J. O. Guleke, attorney for the Society. After approval by the directors of the Society, the contracts will be submitted to the building committee of the Board of Regents for Teachers Colleges for approval, consisting of J. E. Hill of Amarillo, Dr. Webb Walker of Fort Worth and Will Hayes of Dallas.

L. F. Sheffy will take the contracts to members of the Board of Regents, and then file copies with the State Board of Control at Austin and with the State Comptroller.

Directors and members of the building committee of the Historical Society who were here for the letting of the contracts were: T. D. Hobart of Pampa; W. H. Patrick of Clarendon; J. D. Hamlin of Farwell; Horace M. Russell of Amarillo; Mrs. Olive K. Dixon of Amarillo; Dr. J. A. Hill of Canyon; Mr. and Mrs. W. T. Coble of Amarillo; Col. R. P. Smythe of Plainview; Floyd Stuber of Amarillo.

The citizens of the Panhandle have deposited in the state treasury \$25,000 to match the appropriation of \$25,000 which was passed by the legislature.

Nine bids were filed for the Museum. Work will start as soon as material can be assembled.

## Training School Announces New Quarterly Fees

A new schedule of fees has been announced by the Training School of the College. Beginning September 21, the fees for children in the elementary grades will be \$4.00 per quarter. This rate applies through the seventh grade.

High school pupils will pay \$6.00 per quarter.

Both President Hill and Mr. Savage are receiving many letters from people who wish their children to attend the Demonstration school, and in many cases the former rate was a hardship.

Many schools throughout Northwest Texas are dropping some of their high school work because of the lack of funds with which to employ teachers. It is expected that this will bring a large number of pupils of high school age to Canyon this fall, and that many will be accompanied by their parents.

Miss Goldie B. Gibson, who has been attending Baylor College for Women at Belton, Texas, is spending some time with her sister, Mrs. Leslie Waters of Canyon. Miss Gibson was secretary to Dr. J. C. Hardy, president of the college.

Clyde W. Warwick will leave Sunday for Austin to attend the special session of the legislature which will convene Tuesday morning.

Miss Gladys Beavers visited her sisters, Mrs. J. W. Hendricks and Miss Zoe Beavers, in Hereford Sunday.

## Grand Jury Makes Report on Work

### 17 Indictments Returned Against 14 Persons During Term

The following report was made by the grand jury Thursday, when this body was dismissed by Judge Henry S. Bishop. The report covers the activities of the August term of District Court which closed Saturday.

To the Honorable Henry S. Bishop Judge of the District Court of the 47th judicial district, of the State of Texas:

We, your Grand Jury, empaneled for service in the regular August term of the District Court at Canyon, Texas, for the year 1932, beg to submit the following report and request that we be excused from further service as Grand Jurors during the present term.

We have investigated about 25 cases of alleged law violations which have been reported to us, examining 101 witnesses, returning 14 indictments involving 17 defendants, and turning 2 misdemeanor cases to the county attorney for attention in the County Court.

We have been in session ten days, four days of the first week, four days of the second and two of the final week of said term. We have had several very perplexing problems presented to us and have done our best with them, with what evidence we were able to obtain.

We have spent some time investigating reports that absentee

of public money have been placed ballots in the July primary had been opened or tampered with before reaching the precinct judges; but our investigations in this matter showed no irregularities of any kind and no cause for action on the part of the Grand Jury, and it is our purpose to exonerate all parties connected with the handling of these ballots from any misconduct, however, in order to avoid future criticism, we would suggest that a locked box be kept in the clerk's office for all absentee ballots until such time as they are to be turned to the election judges.

We have also investigated reports of alleged illegal voting in the Umbarger precinct, but were unable to locate any irregularities in this investigation.

We have spent much time investigating reports with reference to the spending of road funds that were not placed on the public roads, and these investigations on private property at different times. Tax payers have complained about this matter and it would seem well for the county commissioners to refrain from this practice as far as is consistent with public good, in order to avoid further criticism.

We wish to express our thanks to the Court, the District Attorney, County Attorney, Sheriff's department, Clerk's Office, and other County officials for their co-operation in connection with the work of the Grand Jury; also to the many witnesses who we believe have put forth an honest effort to assist us in our investigation.

**NO APOLOGY TO OFFER.**

The News has no apology to offer to any citizen for bringing to your attention conditions which are being reported to exist in Canyon as to liquor, and the ease with which it may be procured. The statements are not made by The News or anyone connected with this newspaper. The statements are those of citizens in other sections of the Panhandle who claim, and publicly state that booze is being freely bought and sold in Canyon, and that Canyon has a very bad reputation so far as liquor is concerned.

The News has been complimented by hundreds of people the past two weeks for having taken a definite stand against the reported liquor business in Canyon. It has been criticised by those who like their liquor, and like to have it on sale in Canyon where they may procure it. We make this statement without fear of contradiction. The people of Canyon have suspected for some time that a booze ring exists in this city, but they had little idea that the reputation of Canyon was at stake, and that reports were going out that booze could be freely bought here. If people are taking this way about Canyon, why should the citizenship wrap the mantle of self-righteousness about themselves and lull themselves to sleep with the soothing chant that no one will be able to solve this problem, or drive the bootleggers from our midst?

If the reports are true, and the statements are facts, then every citizen has a right to know them, and take an active part to clean up the town. If the statements are true, these reports will greatly injure the College, which is the big part of Canyon. If the reports are true, then something is radically wrong with the citizenship of Canyon which permits this thing to go on. The quicker the citizenship wakes up and makes a determined effort to stamp out the liquor traffic from our midst, and drive out of the community those who are engaged in it, the sooner will the good name of Canyon be redeemed.

When a bank was robbed here last year, hundreds of men were willing to arm themselves to defend the property of the city. Yet we sit idly by, allowing persons more dangerous than bank robbers to hide behind the protection of responsible society, mix and mingle with respectable society, knowing that deep in their hearts they are criminal, are violating the laws of the land, and are selling a damnable stuff which will wreck and ruin the victims to whom they sell.

Someone will object that if liquor is not sold here, it may be procured in other towns, and brought here. That is not our responsibility. If there are citizens who wish liquor, and are willing to violate the law in bringing it into their homes, that is no reason for soiling the good name of Canyon by permitting the stuff to be sold here, and offered to students, whose parents are giving their very life blood to send them to Canyon for self-improvement, rather than self-destruction.

People of Canyon, we have a great responsibility.

Canyon's name is in question. Citizens of the Plains are questioning our right to continue as the educational center of the Plains. Those who have their all invested in Canyon have a right to know how the name of this good town is being brought into question by those who are reported to ply the trade of bootleggers, and are selling liquor openly and freely, as the reports come in.

If you wish to see these conditions continue, just close your eyes, and slumber on.

If you wish to see the name of Canyon redeemed, arm yourself against the powers of evil which are said to be working in this community.

The citizen has a duty, the same as an officer. In the first place, demand of your officers that they be sober, and that they exert every effort to enforce the laws. You have a right to question all candidates before election as to what they have done in the past, and what they expect to do in the future. Then after the officer is chosen, the citizen has a duty to perform in upholding the hands of the officers, giving them all the information which is necessary to curb crime. If the criminal is arrested, let him go to jail where he

belongs. When called upon to serve on a jury, let every law-abiding citizen accept jury service, and use his backbone in returning verdicts according to the law and the evidence, fearlessly and unafraid.

There is work ahead for every citizen of Canyon. Another school town was recently forced to take drastic methods to clean itself up, but it succeeded when the citizens realized that the college located there was in danger. Canyon will do the same thing, if every citizen does its part. It is far better that the world know that Canyon's citizens are law abiding, that they are willing to go to a little inconvenience in ridding the town of the lawless element, than it is for the reports to continue to be circulated that liquor may be bought here freely and openly. Therefore, no apology is due to anyone for having called to the attention of the voters a reported existing evil in Canyon. It is unpleasant to talk about unpleasant conditions which exist in your home town, and to disclose unpleasant things being said about your home, yet it is better that Canyon clean up existing evils rather than let them continue to injure permanently every citizen in Canyon.

The bootlegger has no place in Canyon, and the sooner he is driven out, the better it will be for the town.

**THREE WEST TEXANS.**

West Texas should be interested in three of the candidates for state office who are in the primary next Saturday.

Lee Saterwhite, former State Representative from this district, is a candidate for the State Railroad Commission, 6-year term. Mr. Saterwhite received a very heavy vote from his friends in West Texas in the first primary. They should do efficient work for him in the second primary.

Col. Ernest O. Thompson of Amarillo is a candidate for the 4-year term on the Railroad Commission. He is now holding this position by appointment from Governor Sterling to fill the unexpired term of Pat M. Neff. He led the ticket in West Texas, and should be favored in the primary Saturday.

Pink Parrish of Lubbock is a candidate for congressman-at-large, place No. 1. He is opposed by Geo. B. Terrell of East Texas, who lives in a section of Texas which is adequately represented in congress, and is not entitled to another congressman. In all of the re-districting bills in the last session of the legislature, the Lubbock territory was given a new district. The people of West Texas owe a vote to Pink Parrish, as that section of the Plains is rightfully entitled to representation.

The fallacy of electing congressmen-at-large is shown by the line-up in the other two races for the state-wide places. Dallas furnishes two of the candidates in each place, and indications are that they will be elected. Joseph Weldon Bailey, Jr. took a very large lead over Cyclone Davis in the first primary. He is a dripping wet, while Davis is dry. This may change the attitude of enough voters to defeat Bailey, but even so, East Texas will secure an extra place in congress.

The same thing is true in the race for place 3. Sterling P. Strong of Dallas led the ticket by a large majority and is opposed by Joe Burkett of San Antonio. Both are classed as dry.

**TELLS OF WARWICK.**

From "Faces in the Political Picture" by Hugh Nugent Fitzgerald in The Austin American, Austin, Texas:

Rep. Clyde W. Warwick of Canyon, widely known in Texas Press circles as the editor of The Canyon News, one of the ablest and best weekly newspapers of the state, was defeated for re-election as representative from the 123rd district. There were 14,000 votes cast. Warwick lost by 14. He had served two terms. He is honest and capable and efficient. He is fearless and outspoken and his own boss. He battled for the interests of all Texas as well as West Texas, he was an advocate of ed-

ucation of the children of all the people and one of the most popular lawmakers that has been under the big dome in recent years. "Turn the ins out," was the slogan in his district. Indeed, the wary was to turn them out, fit or unfit. There are times when democracy runs amuck. There are times when the unfit "out" is chosen for the efficient and vigilant and loyal "in."

School will open in Canyon on Sept. 5th. Every boy and girl in Canyon should make plans to be in school the coming year. Sometimes school authorities become enthusiastic over the value of an education, and put out figures showing what an education is worth in dollars and cents to the boy and girl. Very often these figures are not accepted as being true. However, let it be observed that during this period of great depression and unemployment, that the men and women with the least education and the least preparation were the ones who first lost their jobs, and who will likely be the last to be re-employed. Education does pay, even though the earning powers may not be enhanced, for the educated man and woman has more possibilities to enjoy a well rounded life. Send the boys and girls to school the coming year; there will be little else for them to do, and school will keep a lot of them out of mischief if they are not otherwise employed.

The nine constitutional amendments to be voted upon in November will appear for the last time in this issue of The News. Make a close study of the amendments, in order that you may better understand their provisions when you come to vote in November. We have heard a number of people say that they will vote against all amendments at this time. But study these provisions first, and then decide what you believe is the right thing to do.

Al Smith says that he still has nothing to say about the Democratic ticket. Al is sulking in his tent, and making the rank and file of Democracy feel that no mistake was made four years ago in turning him down. He had his chance. Now he should be willing to get behind the national ticket and work for it as he demanded of other Democrats four years ago. Al Smith shows that he is a poor loser.

The flood of illegal votes over the state, most of which were cast for the Fergusons, is awakening the people of Texas to a need of stricter regulations in the primaries. Fully 100,000 people voted in the Democratic primary without having paid a poll tax. The cause of Good Government, Responsible

A young man from Hereford was killed on the highway last week by colliding with a parked truck. This makes a dozen men from the Panhandle who have paid with their lives in collisions with trucks, and scores of others have sustained injuries. Yet there are those who still believe that the trucks should run as they please, with no regulations.

Those dries who so ardently supported Herbert Hoover four years ago now realize that they were led to a political slaughter, and that Hoover did not mean what he said about the "noble experiment." He is as wet as any Democrat who was ever elected.

Vacation time is on in Canyon. Clean up the city before the opening of the fall term of the College. There is great need for a thorough clean up in Canyon. Let's put the job over fine before the fall term opens.

Electric power, to serve any community adequately, must be flexible. It must meet all requirements, large or small—from a large factory to a small household—at any time and at any place.

Small local plants serving single communities lack this flexibility . . . they lack the volume and demand which enables a larger system, serving a wide area by transmission lines, to operate efficiently.

The transmission line delivers larger amounts of power at once without the delay of installing additional equipment. Thus it clears the way for a rapid and permanently expanding industrial growth.

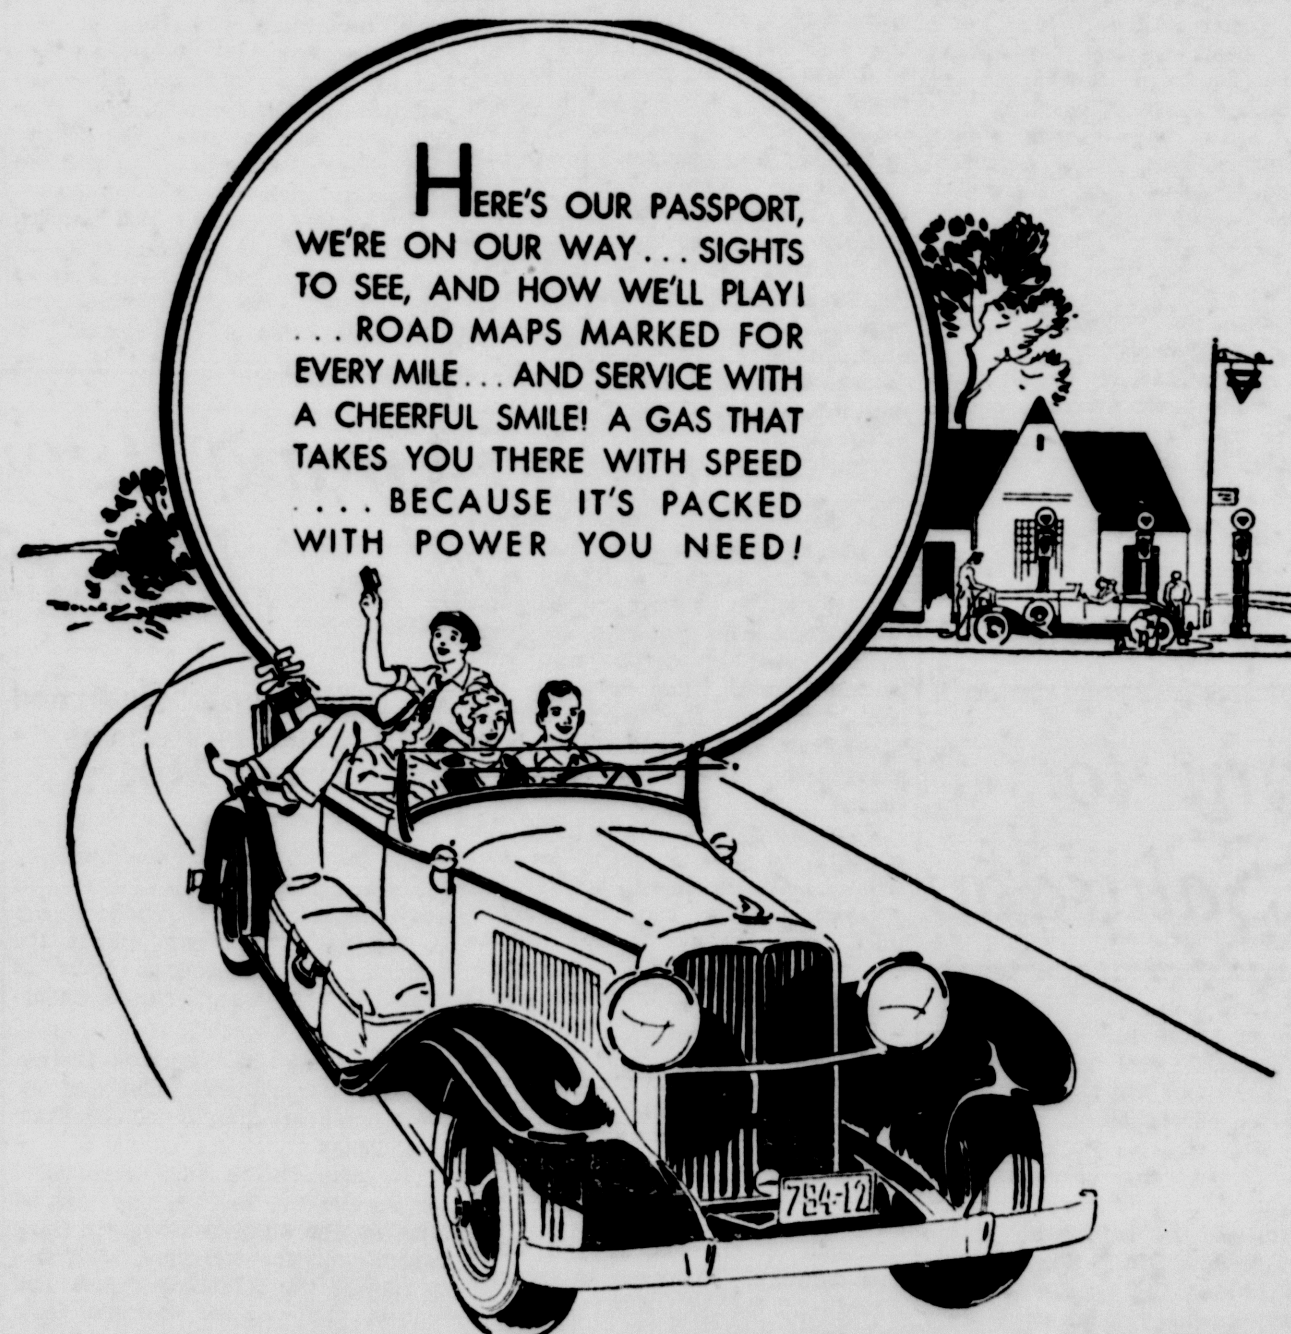

The present day industrial progress of small communities is based in a large measure on the ample and economical power supply which resulted when transmission systems replaced inefficient and expensive small local plants throughout the nation.

The Texas Utilities Company, through its widespread 2,500 mile transmission line network, makes available to 125 progressive West Texas cities and towns over 100,000 horsepower of electric energy—ready at the turn of a switch.

## SUSIE'S Musings

Women, Saturday you shall have another chance to rally to the cause of Texas and to cast your vote according to the dictates of your conscience for the betterment of the state's government and the state's people. Oscar Wilde says that "democracy is the bludgeoning of the people, by the people, for the people," and not as it was designed by our never-to-be-forgotten Abraham Lincoln. We should rule democracy, rather than let it rule us. There is only one way to do that and that is to vote, above all, VOTE!

Consideration of the feelings of others is not such a small thing after all. In fact, it is a mighty big thing, one of the largest, and one of the most important factors in the making of friends. You can be as independent as you like, have thoughts as radical as you wish, but you do not have to force these ideas upon the other fellow. Perhaps he, too, has ideas of which he is just as fond as you are of yours. Find out before you go into your song and dance act and you are not likely to make so many enemies, and are quite apt to make a great many friends instead.

We have with us on the Plains this summer in the person of Peggy Caldwell of Hedley, Texas, a young poetess of no mean ability. She has had verses accepted by "Kaleidograph," a national magazine of poetry published at Dallas, and a number of other poems published by newspapers of this section. She has won also several prizes in the literary contests of the Tri-State Fair. Her "Cotton Pickers" is perhaps the best known of her literary efforts and has received the most favorable comment from critics so far. Miss Caldwell is a student in the West Texas State Teachers College this summer.

Here is one of her latest poems:

SMALL TOWN  
Strangers laugh at the lights on our street,  
Because they are meagre and small;  
They never see the stars sparkle out  
When Night draws her black shawl!  
Music halls and art galleries—  
We have none of these.  
But oh! we have the mockingbirds  
And sunsets and the trees.  
—Peggy Caldwell.

Mrs. Clyde Warwick left Saturday for Long Beach, Calif. Owing to the date of the special session of the legislature being advanced to next week, Mrs. Warwick made the trip to accompany Mrs. Mattie J. Warwick back to Canyon. Mr. Warwick had intended going after his mother.

Mrs. Oscar Hunt returned Wednesday from California where she visited at the home of her sister, Mrs. George Reynolds. Mrs. Reynolds is recovering from a fractured hip, and as soon as she is able to walk will come to Canyon to visit Mrs. Hunt.

Mary Ruth and Joe Gandy of Lipan and Miss Averil McLean of Fort Worth visited in the home of Mr. and Mrs. C. H. Jarrett the past week end.

Miss Janana Collins of Texline is visiting her sister, Mrs. J. R. Bonds, and with Miss Ruth Burtz this week.

**Mrs. Clyde Bascom left her dinner cooking while she weeded the garden. Just as she re-entered the kitchen, the kerosene stove exploded.**

Her first move . . . the telephone.

"Central! My house is on fire!"

And Lucy Adams, at the switchboard, did the rest. "Too far out for city water," she reasoned. Then, quickly, she called a half dozen men who had cars. They sped to the scene. Water from a cistern saved the Bascom home.

Next day, the operator again "plugged in." It was Mrs. Bascom.

"Lucy, you sure got help out here in a hurry. That call was worth \$1,000 to me. Don't know what I'd have done if the house had burned . . ."

Day or night the telephone is ready for your calls. It may be an order at the store . . . a call for the doctor . . . your house on fire . . . or, just to visit with neighbors.

Your telephone may be worth a nickel today . . . a quarter tomorrow . . . a thousand dollars next week. You can buy few things which cost so little and are worth so much.

### Foundation Pattern School Held Monday and Tuesday Is Big Success

"A decided success," pronounced both Mrs. Dora R. Barnes, extension specialist in clothing from A. & M. College, and the club women of the Foundation Pattern school which Mrs. Barnes held here Monday and Tuesday with the assistance of Miss Sadie Kate Bass, county home demonstration agent, as a part of the annual program of the department of home demonstration.

"The purpose of the pattern school," said Mrs. Barnes, "is to enable every woman to work out a more harmonious wardrobe by doing definite planning, by providing adequate storage space, by keeping records of expenditures, and, last but not least, by working out a foundation pattern which will make it possible for her to fit herself perfectly without trouble. These patterns are cut from unbleached muslin to fit each individual figure. They may be used in the cutting of any style dress or undergarment, and determine only the basic fitting qualities of the pattern, not the style."

Business sessions of the school were held during the day on the third floor of the Administration building at the college and were open to one representative from each of the demonstration clubs in the county. Those who attended were Mrs. Mary Simon, Zita, Mrs. O. E. Shearer, Park, Mrs. S. S. Williams, Tierra Blanca; Mrs. Albert Byars, Lakeside; Mrs. Melvin Miller, Sunny Hill; Mrs. Frank Culp, Jewell; Mrs. J. L. ## CANYON SUPPLY COMPANY

# National Radio Song Contest Is Announced

**Miss Mattie Mae Swisher Is Chairman For This Area**

Young singers of Canyon and vicinity, who aspire to musical careers—not to mention a chance at a cash prize of \$5,000—will have an opportunity to make their dreams come true by enrolling, prior to Sept. 12 with Miss Mattie Mae Swisher of Canyon, local chairman for this area of the 1932 National Radio Audition.

Contestants who qualify in this local audition will be in line for advancement, through state and district contests, to participation in the National Audition Finals, the winners of which will receive, from The Atwater Kent Foundation, cash prizes totaling \$15,000. Individual awards to the five young men and five young women who progress to the finals will be: \$5,000 each to the young man and young woman rated highest; \$1,000 each to second place winners, one young man and one young woman; \$500 each to the six runners-up—three young men and three young women.

Miss Swisher in urging young singers to test their talents by entering the local audition, emphasizes the fact that a high degree of vocal training is not necessary for success. The aim of the audition is to select the most promising naturally-beautiful voices, not the best-trained voices. The untrained voice of rare quality, she declares, has a better chance than the trained but mediocre voice. Therefore no voice-gifted boy or girl should hesitate to enroll because they have had little or no training.

Any young amateur singer between the ages of 18 and 25 inclusive is eligible to compete. Full information for enrollment can be obtained by application to Miss Swisher, phone 434. Every winner—local, state and district as well as national—will receive a permanent token of his or her success. More valuable than the direct prizes, however, is the prestige and recognition accruing to those who take part in these auditions. Many young singers who have taken part only in the state and district contests have found the audition a real stepping-stone to musical careers.

## EPISCOPAL CHURCH

Bishop E. C. Seaman, of Amarillo, will visit Canyon next Sunday night, and will preach at the Episcopal Church, at eight o'clock. It will also be the last time that Mr. Walter Henckell, who has been in charge of the local work this summer, will be here.

It is hoped that the friends of both Bishop Seaman and Mr. Henckell will be present at this service, and all who attend the services are invited to spend an hour afterwards at the Little House of Fellowship, to greet Bishop Seaman and to say goodbye to Mr. Henckell, who leaves shortly for a visit to his home in Birmingham, Ala., before returning to the Theological Seminary, at Alexandria, Va., where he will complete his preparation for the ministry in one more year. It is hoped that many Canyon friends will respond to this invitation.

## Hill Addresses Baylor Graduates at Waco Tuesday

President J. A. Hill arrived home Saturday morning after a five day sojourn in east Texas, where he delivered the commencement address for the Baylor summer graduating class and attended to business in the interest of the Texas State Teachers Association.

At Waco Dr. Hill had the honor to address the first Baylor senior class to graduate under the administration of President Pat Neff. The subject of Dr. Hill's address at that time was "The Rising Tide of Freedom." While in Waco Dr. Hill spent several enjoyable hours visiting with E. H. Vaden, a boyhood school mate, who is now Business Manager of the Waco Schools.

At San Marcos, Dr. Hill addressed the student body of the Southwest Texas State Teachers College concerning the work and program of the Texas State Teachers Association.

Returning through Fort Worth an important business conference was held with Secretary Ellis of the T. S. T. A. While in Fort Worth Dr. Hill conferred with Superintendent Green of the Fort Worth Schools concerning school problems of Texas.

Dr. Hill was very gratified to find the hot weather of east Texas relieved by heavy rains. The last trip Dr. Hill took in the southeastern part of the state was cut short because of what Dr. Hill called the "unbearable heat."

## Dr. Hill Comments On the Work of Mr. Allen to College

In commenting on the work of Mr. L. G. Allen during the twenty-two years he has been here, Dr. J. A. Hill made the following statement:

"I can say honestly and frankly that I have never known a man to give more completely all of his talent and time to the institution than Mr. Allen. He has been loyal to it and to its ideals. He has been most efficient in establishing the standards for the college which have made it recognized in the educational world.

"He has a heart of pure gold, though sometimes people do not understand it. I have never known a man with a higher personal ideal; one more devoted to honesty, industry, and loyalty to the best.

"He has helped to train a good many competent men and women who have made good in a large way in life. He has set up for the youth of Texas a noble example of private living and public service. I feel that Mr. Allen will continue to serve the institution in his new capacity."

Mrs. J. S. Cole and children of Amarillo spent the week end at the home of her parents, Rev. and Mrs. J. H. Braswell.

P. L. Haynes was a business caller in Amarillo yesterday.

## CANYON CITY CLUB NEWS

Clovis failed to fill last Sunday's date at the club, much to the disappointment of the home boys, who were on their game and were looking for revenge. They "failed to come, send word or write" Bill Bryant said, "just left us waiting at the church." The game forfeited to Canyon.

Mrs. W. C. Kunze and guest, Mrs. Chamberlain, has been spending a few days at the Club.

The game at Tulla next Sunday is the last of the League schedule for this year. It is hoped the best team possible will be ready to tee off at 1:30 o'clock.

Guests of Mr. and Mrs. Reeves at the club Monday were Mrs. H. B. Tate of Washington, D. C., Mrs. Oscar Gamble and Miss Ruth Gamble and Miss Jennie C. Ritchie. A picnic lunch was a feature of the outing.

Players will find Nos. 6, 10 and 12 just a little harder as bunkers and traps have been made at these greens; protection of the greens from flood waters being the main idea, and not to make a good score harder to get; a ball to the right at about 200 yards on No. 3, will also be in trouble, soon.

## W. T. Professor To Supervise in Contests at Fair

Professor Frank R. Phillips, head of the agriculture department of the College, has been appointed superintendent of the student dairy cattle judging contest and of the Future Farmers collective exhibit at the Amarillo Tri-State Fair.

Professor T. M. Moore, also a member of the agriculture department, will be in charge of the vocational and 4-H clubs poultry judging contest at the fair. The recently published premium list and catalog of the Tri-State Fair shows that Canyon is represented on the board of out-of-town directors for 1932 by Clyde W. Warwick, C. R. Burrow, J. A. Hill, T. C. Thompson, and R. A. Bellah.

According to Huey Long, a drunk is one who "prostrate lies and cannot rise." And here we've been penalizing persons who just drink a pint or so and hit somebody with an auto.

Massachusetts people reject a portrait of Governor Allen because it shows him with his hands in his pockets. The ordinary politician with his hands in his own pockets is more to be praised than censured.

A former governor's home was auctioned off when he was unable to pay a \$500 note. Times are getting really bad when a politician gets into financial difficulties.

After a lapse of 30 years, a Watertown, N. Y., man visited his mother. And probably had to explain what he did with the 30 cents she gave him to go to the store.

Denver minister says that women still prefer their husbands, home and babies. He meant "husbands at home with their babies."

## In "Perfect Accord"

Garner, the candidate for vice president, as they met for the first time since the Chicago convention. A Massachusetts woman proposed that New York state be allowed to be a "model wet state" to demonstrate to the rest of the states what conditions would be without prohibition. Hasen't New York enough of the country's population now?

**Editor's Note**—These recipes for canning are given by Miss Sadie Kate Bass, home demonstration agent for Randall county, and are especially seasonable for use at this time of the year. It is suggested that they be clipped and placed in your recipe cabinet for reference now and in the future.)

### CANNED PEARS

Select pears ripe but not soft. Pare, leave whole, or cut into halves and drop into cold salt water (1 lb. to 1 qt. water) drain thoroughly and place in boiling syrup made of 4c. water and 2c. sugar. Pears will look better and give a clearer pack if boiled in syrup from three to five minutes. When packed whole, leave stems on and place each layer stems up, letting the second row fill the space between the two stems, and repeat. If the pears are to be cut they should be pared, evenly divided into halves and canned. The fruit must be kept submerged in salt water after being pared or it will discolor quickly. 8 or 10 large perfect pears, covered with syrup, will give a good pack in qt. jars. Pack pears, cover with syrup and process qts. for 35 or 40 minutes. Pack No. 3 cans boiling hot and seal immediately. Process for 30 or 35 minutes at 212 F. in water bath.

### CANDIED FRUITS

1. Preparation of fruit for cooking. Puncture cherries, figs, kumquats, crabapples and apricots through and through in several places with a silver fork; peel pears and peaches; core or pit and cut in half; cut pineapple in rings as for canning or use the canned product. Fruit for candying should be firm, ripe but not soft. Canned fruits may be used instead of the fresh fruit.

2. If fresh fruit is used, cook carefully in water until tender. Avoid breaking the fruit. Place the cooked fruit in a pan or stone-vessel crock or other convenient vessel.

3. Prepare a syrup of corn syrup or glucose, 1 cup and 2 cups of water. Heat this to boiling and pour it on the prepared fruit. Leave 24 hours.

4. After 24 hours pour off the syrup and to each 4 cups add 1/2 cup of sugar. Heat to boiling and pour back on the fruit.

5. At intervals of 24 hours repeat this process adding 1/2 cup of sugar to each 4 cups of syrup each time until the syrup becomes very thick and of about the consistency of thick honey. Leave the fruit in this syrup for about one week.

6. Remove the fruit and drain it. Place it on a coarse galvanized wire screen or hardware cloth and allow to dry for about 1 week in a room where a draught or breeze will strike it.

7. Pack in pasteboard or wick-

er boxes or open jars. Do not use sealed containers.

### TO MRS. G. W. AVENT AN APPRECIATION

The Women's Wesley Bible Class of Canyon Methodist church wish to pay a tribute of love and honor to one of our number, Mrs. G. W. Avent, who has passed from our sight into the great beyond, leaving an influence that we cherish. The following are some of the spontaneous expressions from her classmates and teachers:

"Sister Avent's life has been an inspiration to me."

"A sweet child of God, she was like a mother to me and an inspiration."

"When with her I felt a little nearer the path of right."

"A great fine Christian character."

"A mother to every one."

"A living epistle of Christ."

"A sweet Christian character."

"She has been a wonderful inspiration to me as a Christian unfailing."

"To me, her face shown like an angel's."

"A noble mother has gone; she was a regular attendant at Sunday School and she will be greatly missed."

"I believe she was a true child of God. She was an inspiration to me."

"Her smile made me think that she demonstrated the divine watch-care."

We all feel that to such as she, this is not death, but just transition.

**Fifth Issue of  
Historical Review  
Will Be Out Soon**

Announcement was made Saturday by Professor L. F. Sheffy, field secretary of the Panhandle-Plains Historical Society, that the 1932 issue of the Panhandle-Plains Historical Review will be off the press within the next week. This is the fifth issue of the publication.

The cover page is a sketch of the old Bugbee ranch, Panhandle home of Thomas S. Bugbee and birth place of Mrs. W. H. Patrick of Clarendon. A short sketch of the life of Colonel Bugbee appears in the book. The experiences of T. D. Hobart of Pampa, when he was a surveyor in the Panhandle more than forty-five years ago, have been reprinted from the "Vermonteer."

W. S. Mabry, now of Salina, Alabama, the man who surveyed the location on which old Fort Elliot was built, has written an article telling of his experiences.

Early days in Carson county by Judge J. C. Paul is a most interesting article according to editor Sheffy and in it are mentioned the names of many early settlers of the Panhandle and particularly of Carson county.

Dr. W. C. Holden of Lubbock has contributed the "Spur Ranch and its Neighbors."

Lee Gilmore, a graduate student of the West Texas State Teachers College has written a brief history of the Mill-Iron Ranch of Hall and Childress counties.

J. Everts Haley, former field secretary of the Society, now of Austin, has edited for the Review the dairy of Ely Moore.

The publication also contains a complete list of the donors to the Panhandle-Plains Historical Society Museum Fund.

Professor Sheffy has spent much time editing the Review.

**Sixty Canyon Boys  
Return From Camp  
Hulen Sunday Morn**

One of the best National Guard camps ever attended by a Canyon company was ended Sunday morning, August 21.

Approximately sixty Canyon boys attended this camp at Camp Hulen, Texas.

The encampment was unusually interesting because of the schedule that "F" followed. The first days were crammed with activity, pitching tents, and placing the camp in order. On the seventh day of camp, August 13, storm warnings were received by radio and wireless. Storm orders were given to the 142nd Regiment at 4:00 o'clock, and the tents were taken down and all government property placed in the mess hall. The men crowded into the same building and those who could find a place went to sleep. The next morning the tents were pitched again on the muddy terrain, and the camp slowly resumed its original pace. General John A. Hulen, commanding officer of the camp, issued orders commending the men in the 36th division for their conduct during the storm. General Hulen also thanked the soldiers for the best camp he had ever witnessed.

Sergeant Bill Simmons of Company F made the Divisional Rifle Team, shooting the fifth best score of the team and the second best score made by an enlisted man. A medal was given him by General Hulen at Regimental parade.

Contrary to the former camps, the men were not bothered with mosquitoes. "The turkeys," as the insects are dubbed by the soldiers did not show up until the last two days of camp, when steady land breezes brought them to the shore.

**UNEQUAL REGULATION IN  
TRANSPORTATION CAUSES  
DISORDER AND CONFUSION**

● The instability, confusion and disorder which unrestrained truck transportation has brought about is responsible in large measure for much of the distress in which all business finds itself today. Texas has moved to find a remedy and all concerned in the welfare of this state and its institutions should cooperate in the effort to restore stability and order to our transportation systems.

The Texas Railroads, in these advertisements, have endeavored to place before the people of this state some of the reasons why the existing laws, regulating motor transportation, should be upheld and enforced.

1. The railroads are necessary for the successful marketing of the enormous production of this state, which is used and consumed in every other state in the union.

Uniform, published, non-discriminatory transportation service rates are essential to the orderly conduct and welfare of business.

Unregulated truck transportation inevitably results in discriminatory charges and practices, rebating, unfair and unbusinesslike competitive methods, bringing about losses and commercial insecurity.

The wholesaler, jobber, retailer and local merchant suffer from the unfair competition of truckers and peddlers who, for the most part, are non-residents, pay no taxes and contribute nothing to the community welfare.

The farmer and agricultural producer must have at his command facilities adequate to transport crops and produce which move long distances in large volume, at low cost, by rail.

2. The railroads build and maintain their own roadways, pay heavy taxes for the support of state and municipal governments and institutions, and expend millions of dollars for payrolls, materials and supplies. Railroad workers are substantial citizens, home owners, and valued members of their communities.

3. Rail transportation is the most efficient and economical in existence for the movement of traffic in volume by land.

4. Texas highways belong to the people and are built and maintained at heavy cost. Their use for commercial purposes is a privilege, not a right. They should be kept safe for general use and not prematurely destroyed by heavy trucks.

5. The stability, security and orderly conduct of business require reasonable control and regulation of all transportation agencies.

# Vote For The Man Who Is Experienced Aggressive Capable For Sheriff and Tax Collector

Bob Barnett's motto is "Strict enforcement of ALL LAWS without favors to anyone." He has not made a last minute declaration on the Prohibition law or on any other one law, because his attitude and record show that all law violators will be treated alike by him.

Last minute attempts will be made to defeat Bob Barnett through underworld political lies. If any of these are brought to your attention, consider the source, and demand the proof from those who circulated them. His record stands out for law and law enforcement.

## A FEW FACTS CONCERNING HIS RECORD

In 7 liquor cases, arrests made by Bob Barnett in the last two years, and in which cases he was the State's witness, there have been 6 convictions.

Out of 67 indictments on felony charges during the past three years Bob Barnett has made the arrests in 46 of these cases.

These facts are taken from the records of Randall County and prove that he has been alert in the enforcement of all laws at all times, and has been connected with every important case in Randall County during his four years as Deputy Sheriff.

Mr. Barnett has made every effort to see each voter in the County, if he has failed to see you it has been unintentional and he earnestly asks for your support.

In closing the speaker said, "Shall we look forward to the Golden Age? It all depends upon the decisions we make in this day of trial. If we can give more attention in our education, to the individual child, that his emotional and spiritual development shall be sufficient to make his individual habits and conduct serve society as a whole, the Golden Age may lie ahead."

Young ladies and young gentlemen, the Rising Tide of Freedom, is giving you a part in such a program calls you to a sacred mission—summons you to a holy cause—the Cause of human freedom, which, indeed, is the cause of God."

## Education

(Continued from first page)

6. Education may be considered expensive, but the cost of ignorance, with its accompanying crime, makes civilization unsafe, and more expensive than thorough education.

7. All states are fearing a deficit in treasury at this time, but there is more ground to fear a deficit in the spiritual life and in-

telligence of our people if the cause of education suffers.

Mayor C. R. Burrow outlined what education contributes to business. The schools are in the first place big business organizations in every community, and contribute much to the business of every community. The schools are making safe methods of business, and increasing the output of industry in every nation. The teacher's salary is a small part, averaging only \$1364 in the United States, all of which is quickly spent in the community where the salary is earned.

Education has increased the demands for business products, as the automobile, radio, telephone. Education increases consumption, with higher planes of living.

Tracing the monetary value of an education, Mr. Burrow showed that the men without education earn much less than the ones with a high school or college education. 54 out of a 100 with only a common school education when they reach 60 years of age are dependent either on relatives or upon society. The day of business success without an education has passed, was the conclusion of Mr. Burrow.

The birthday of Wes Klein-schmidt on the 26th was observed.

Visitors Tuesday were: Grady Pipkin of Eastland; Paul A. Potter of Borger; Dorsey B. Smith, C. O. Williams, Don Hunsaker, F. A. Zimpfer, all of Amarillo; S. H. Condron, Albert Barnett and C. R. Burrow of Canyon.

## Outdoor Activity Is Featured at Northwest Camp

Northwest Texas Girls' Camp opened its 13th year with an attendance from all parts of the Panhandle, including Amarillo, Abilene, Childress, Clarendon, Canyon, Crowell, Colorado, Gainesville, Shamrock, Hereford, Memphis, Muleshoe, Vega, and Westbrook.

Music, sports, swimming, hikes, and camp-fires have been the outstanding activities for more than 110 girls who have registered to date.

Mrs. Genoa Dixon, colored soloist of Amarillo, and four members of the colored choir have presented an evening of negro spirituals. Mr. Matha Hilburn of Shamrock, impersonator and reader, gave an evening of entertainment, following a program by Mrs. Gaston Foote, talented reader of Amarillo, who gave an interesting presentation of the women of Holland wearing their native costumes.

Stories around the camp-fires have featured the history of the Indian race, studying the life of those who first settled in the canyons. The groups are organized into tribes, representing the Sioux, Choctaws, Comanches, Apaches, Mohawks, Kickappos, Washaki, Tuscororas, Navajoes, and Cherokees.

At Sunset on Wednesday, the girls in Indian style followed the trail to a high hill and watched the sun set, singing songs around the campfire as the shadows gathered.

The camp will continue through August 26. New groups are arriving daily.

Attaching the beer bill as a rider to the home loan bill was good political strategy anyway, knowing how tough it is for Congress to keep from granting appropriations.

## COACH BURTON WILL ISSUE CALL FOR MEN

THIRTY-FIVE MEN WILL REPORT FOR TRAINING.

Coach Burton will issue his first practice call for the coming grid season on Saturday, September 10. This will give the big coach only eleven actual practice days in which to prepare the Buffs for one of the most crucial games of the coming season. On September 23 the Buffs will do their best to take the measure of their ancient foes, Simmons University Cowboys. Coaches Burton and Crump will have approximately 35 men to report for the annual training season. Of this number, 10 will be letter men. The lettermen, led by Captain Bill McClendon, outstanding center for the Buffs for the past three seasons, to report will be: Duncan, halfback; Spence, back; McGinnis, halfback; Burk, quarterback; Brotherton, halfback;
